BMW E30/E36 Manual Transmission Fluid Replacement | 3 ...

Comments: I replaced manual transmission fluid in my 94 325IS with Swepco 201 about 3 months ago. I am in Missouri and my experience with this gear oil has not been great in cold weather. The gears were very hard to shift in cold weather and have to wait until the engine gets to operating temperature.

BMW 3

Pelican recommends changing your synthetic motor oil every 5000 miles and 3000 for dino oil. Always replace your filter when changing your oil. Different engines and climates require specific oil viscosities. Be sure to refer to your owner's manual for the type and viscosity of oil required for your car.

BMW DIY – Manual Transmission and Differential Fluid ...

BMW DIY – Manual Transmission and Differential Fluid Change How To. July 27, 2012. Share. ... Like engine oil, the fluids in your BMW's differential and transmission perform two tasks. They not only lubricate and prevent wear to the parts that are moving against each other, they also help cool the assembly by removing heat from the metal ...

Clashing advice: best oil grade for E30? | BMW CCA Forum

Again oil is very subjective. I use Red Line Synthetic oil in all my cars, including my 84 318i and 88 M3. I use it in the trans, diff, power steering, and motor. I don't have to add any oil in my 318i between oil changes. I think the best thing is to use an oil you trust and then stick with it. Don't keep changing brands.
